EDUCATION

Pune Institute of Computer Technology

07 2021 – 06 2025

Degree Name - Computer - Engineering - CGPA: 9.30

Pune, India

Delhi Public School, Pune

04 2020 – 06 2021

AISSCE(PCM) - Percentage - 94.40%

Pune, India

Delhi Public School, Pune

04 2018 – 04 2019

AISSE - Percentage - 95.60%

Pune, India

COURSEWORK / SKILLS

- Data Structures
- Artificial Intelligence
- OOPS Concept
- Web Development
- Algorithms
- Data Science
- Computer Networks

PROJECTS

Fit-Mate Website  | [MERN Stack](#)

- Fit-Mate is a web application built using the MERN (MongoDB, Express.js, React.js, Node.js) stack. It allows users to track their fitness goals, manage workouts, and monitor progress.

Portfolio Website  | [React](#)

- A dynamic and responsive portfolio website built with React, showcasing a curated collection of my work and accomplishments. **Skills Learned: ReactJS, EmailJS.**
- <https://vivekgotecha.netlify.app/>

Cyber Bullying Detection | [Python](#)

- Implemented a Cyber Bullying Detection system using Pytorch, Firebase, and Gradio. Integrated Firebase for secure user authentication, ensuring robust access control and user management. **Tech Stack: Pytorch, Firebase, Gradio.**

Income Tax Calculator | [Python](#)

- Developed an interactive Income Tax Calculator using Python Tkinter. The application allows users to input financial data and calculates income tax based on predefined rules. **Tech Stack: Python Tkinter.**

Front End Projects | [HTML](#), [CSS](#) and [Javascript](#)

- Projects Developed using HTML, CSS, Javascript. **Project Names : Disney+Hotstar Clone, Amazon Clone, Spotify Clone, Analog Clock, Weather App using API.**

TECHNICAL SKILLS

Languages: Python, Java, C++, Django, HTML, CSS, JavaScript, React, SQL, MongoDB, DAX language for MS PowerBI

Developer Tools: VS Code, Eclipse IDE, IntelliJ Idea Ultimate

Technologies/Frameworks: Linux, GitHub, ReactJS, NextJS, NodeJS, ExpressJS, Git, Mongo

EXTRACURRICULAR

Member of PCSB (PICT CSI) Club

01 2022 – Present

Pune
